DYKES

LUMBER COMPANY

100% EMPLOYEE OWNED

Dear Friend:

You should find this catalog the most useful one of its kind.

Not only because it presents the largest stock of mouldings in the East, but also because it includes descriptions of many of the building products we distribute. It is, however, by no means a complete list of the products we handle. We invite you to call any of our branches if what you are looking for is not listed.

This catalog shows end views of all mouldings which are in stock for immediate delivery. Special designs can be made to specifications in all woods.

If you have any question at all about any project you have in mind, our experienced people will be happy to help.

The Dykes Lumber Co. is 100% employee-owned which assures you of a helpful, friendly, and dedicated attitude for your needs.

We believe you'll find that it's always a pleasure to do business with us.

Sincerely,

Charles A. Kreyer
President

Electronic Catalog

The complete line of Dykes moulding drawings are now available on our website in DWG, PDF, or JPG file formats. These are professionally drawn two dimensional images which can be imported directly into plans or documents.

Pattern Number Index

3

Pattern numbers listed in numerical order with Catalog page opposite, on which cut appears. Moulding are stocked in poplar or pine unless otherwise marked with an ★, light weight MDF a ♦ and in a hard maple, cherry or mahogany are marked a ●. All patterns, however, can be run to order in any wood desired or in flexible materials.

HARDWOOD MOULDINGS

The mouldings shown in the first half of this book are primarily kept in pine or poplar. Beginning on page 52 is Dykes selection of red oak profiles. These are stock items, kept in inventory and ready for immediate sale. We are also stocking a growing number of items in cherry, hard maple and sapele mahogany. These items are marked with a bullet (•) in this catalog. Of course, almost any item can be made in any wood on a special order basis.

PRIMED FINGER-JOINT PINE MOULDINGS

We currently stock about 60 popular items in an exterior glue, finger-jointed and primed pine as well as a solid pine or poplar. This allows these patterns to be inventoried in desirable lengths (primarily 16') and the priming saves time on finishing. These are economical and labor saving products when the moulding is to be painted. These items are marked with an asterisk (*) in this catalog.

PRIMED ULTRALIGHT MDF MOULDINGS

Dykes is also inventorying over 40 patterns in Truchoice ultralight medium density fiberboard from Arauco. Ultralight mouldings work and feel like wood, come in 16' lengths with an exceptional priming and are a great value. These items are marked with a diamond (◆) in this catalog.

PVC MOULDINGS & BOARDS

Dykes now carries a line of PVC mouldings and boards for low maintenance and high durability in exterior applications. See pages 88-90.

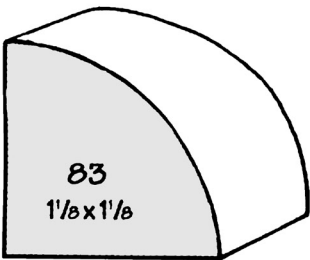

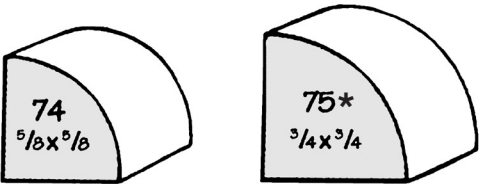

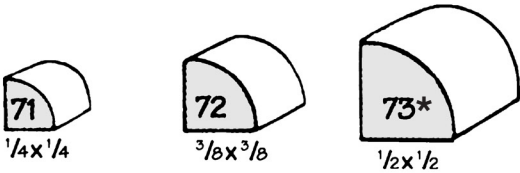

DURATION POLY-ASH MOULDINGS

Dykes carries a line of extremely stable Boral poly-ash patterns for exterior use. See page 91 for more details.

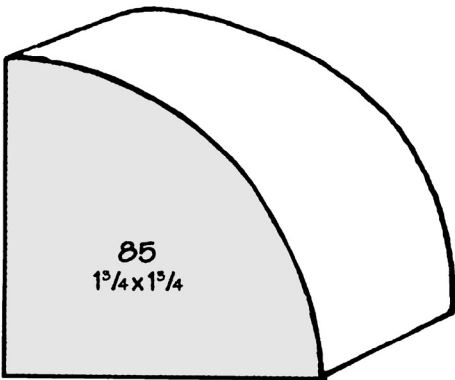

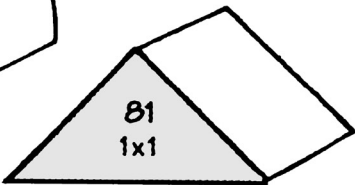

FLEXIBLE MOULDINGS

Most Dykes patterns are now available in a flexible resin which is ideal for round top or eyebrow windows, arched doorways, rounded walls or stairways or any other curved application.

INSULATION PRODUCTS

KNAUF

BLANKET-TYPE INSULATION

1. Install between rafters or studs, vapor barrier facing inward.
2. If blanket has no vapor barrier, force it between studs, then staple polyethylene vapor barrier into place on inside face.

THERMAFIBER —

Sound Attenuation Blankets

A semi-rigid mineral-fiber mat of uniform dimension and controlled density. These blankets are fire resistant and will substantially improve STC sound ratings.

INSULATION BOARD

1" 2'x8' 1-1/2" 2'x8'
2" 2'x8'

POLYETHYLENE SHEETHING

Use it under concrete slabs, over studding and as heat-loss barrier. Protect outdoor furniture and equipment. Close in breezeways and porches. Use it for drop cloths and waterproof wrapping. 100 lineal foot rolls.

4 mil — 10'x25' — 8'x100' — 10'x100' —
12'x100' — 16'x100' — 20'x100'
6 mil — 16'x100' — 20'x100'

WHITE BEADBOARD POLYSTYRENE INSULATION

Use on concrete walls before you panel.

homasote

INSULATION BOARD

An insulating board that is often used on ceilings and walls to maximize insulation. Also available with cork or burlap surface.

DUROCK / BACKER BOARD

1/4" — 3'x5' sheets
1/2" — 3'x5' sheets
5/8" — 3'x5' sheets
1/2" — 3'x6' sheets

DYKES

MAPLE BUTCHER BLOCKS

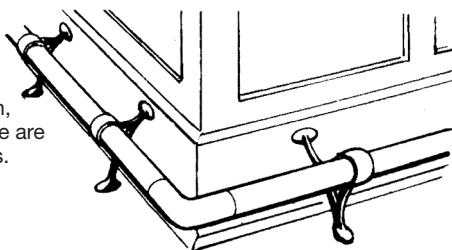

1-1/2" thick kiln dried hard maple chopping blocks. 25" from front to back. Perfect for use over dishwasher or kitchen counter. Available in lengths of 18" to 120" with optional back-splash.

Parker Solid Brass

RAILS AND FITTINGS

.045 wall thickness. Solid brass throughout. Frequently used in bars, restaurants, boats, and other uses where strength, beauty and rust resistance are important. Polished Brass. Not lacquered.

Also Available:

1" and 1-1/4" Chrome Tubing 4' - 12' Lengths. Open and closed flanges. Ideal heavy-duty closet rod.

CUPOLAS AND WEATHERVANES

Ventilate and decorate with Stevenson cupolas. Natural air currents help carry away excess moisture trapped under roofs. Add an ornamental touch with Stevenson hand-cast weathervanes. Many models and sizes available.

CEDAR CLOSET LINING

Aromatic cedar closet lining is available either in tongue and groove boards or 4x8 panels.

DYKES

IPÉ DECKING

The Finest Quality Wood Available

Ipé is naturally beautiful, durable and weather-resistant. In many ways, it is the ultimate outdoor wood. Ipé casts a rich amber hue, is twice as dense as other wood species, and is five times harder than pressure treated lumber. Ipé does not stain or rot when exposed to the elements...all without the benefit of preservatives. This means Ipé requires minimal maintenance and is well suited for exterior decking, for both residential and commercial applications.

SLIP OVER POST CAPS

Available in many designs, including brass and copper top.

feeney® CABLE·RAIL®
makes it easy

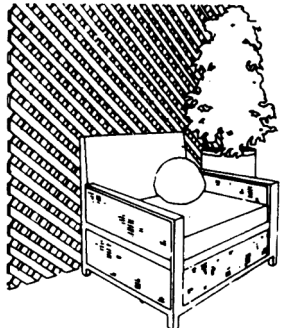

Improve your view with cable rail systems by Feeney.
Easy to install and maintain.

LATTICE PANELS

Exterior — Made of heavy gauge lattice which has been treated to resist rot, decay, and attack by insects. Available in 48"x96" sheets with 1-3/4" openings.

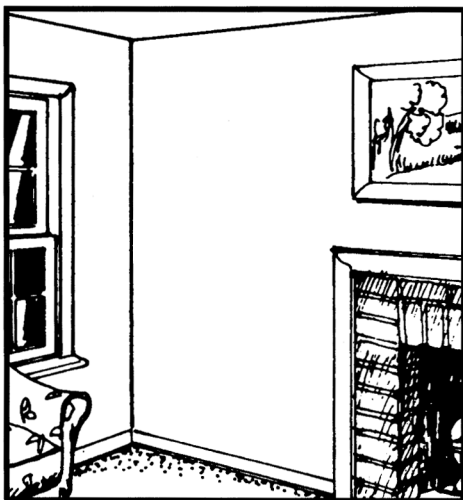

Also available in cedar, or solid white vinyl.

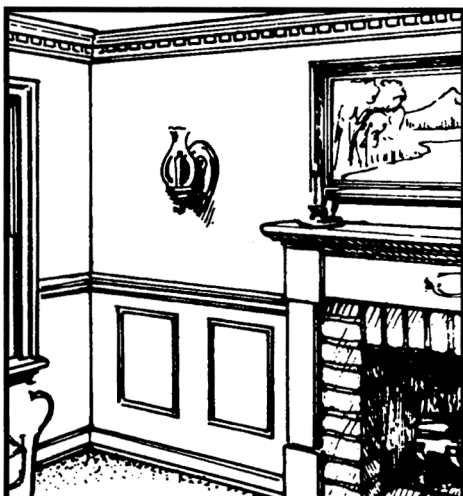

IN NEW YORK CALL 212-929-3580

As a general rule, size, not shape, determines the price of mouldings. So why use the same plain patterns found everywhere when Dykes has so much more to offer? Visit us to see and handle every choice. Look at our moulding displays. Then use mouldings to distinguish another American home ... yours.
